1 JUL. '86

To the Hon. the Minister for Works

The humble petition of the undersigned land-owners and residents of Cleveland, Capalaba, Mount Cotton, Redland Bay, Tingalpa, Tingalpa Scrub, Bulimba, Belmont, Coorparoo and South Brisbane sheweth:—

That your petitioners are bona fide residents or property owners in the districts affected by the Brisbane and Cleveland Railway and that they have read your words both in and out of Parliament in favor of a straight route with the greatest satisfaction

That that route is the one which will confer the greatest advantage on the greatest number and enable those of us who are farmers & fruit-growers to convey our produce to Brisbane which the coastal route will not

That we do not wish to repeat the arguments already laid before you in favor of the shortest route but wish only to remind you that it will serve by far the largest number of people, command the most traffic and cost less in construction than the longer line which passes through country principally held by speculators who hope to benefit by the expenditure of public money.

That had it not been for statements

destrious[ly] circulated by interested persons
that the line is, in opposition to your statements,
to be carried round by the coast we should
not now have addressed you

That we now pray that the line may be
carried by the shortest and straightest route
as promised by you at various times and
your petitioners will ever pray
